Anna E. Spring Presents Pupils in Recital

The recital given at Hamilton Park hall last Wednesday eve by pupils of Anna E. Spring showed them to be in an exalted mood. The various selections of the program satisfied all demands. It should be added that the virility of their conceptions are founded on certain very solid and musicianly qualities of technical development. It was a delight to hear the clarity of their playing.

Miss Spring has reasons to feel proud of her class, especially of Lillian L. E. Jesse, who was presented with an academic certificate after having successfully passed examinations in musical history and piano required in the academic course. Miss Jesse is one of the class who will take up the work as a profession and will enter teacher's course under the instruction of Anna E. Spring in September.

Mr. Brown, Lyon & Healy building, delivered an interesting address and closed the program with the brilliant Polonaise by Chopin and Lucia (left hand alone) by Leschetizky. He is numbered among the leading artists of America.

Alarm Alarms Auburnites

The time: 2 a. m. Saturday, June 12th.

The place: 7742 S. Halsted St., Stepanek's Corset Shop.

Were you one of those who were disturbed from their peaceful rest last Saturday morning when the burglar alarm of Stepanek's Corset Shop began ringing furiously? By the time Mr. Stepanek arrived he found five policemen on the job, no burglar, but the bell still pouring out its song. It seems that the building settled or some other inconceivable force jarred it so as to inform the residents of Auburn that Stepanek's have a burglar alarm on their new store.

Auburn Park to Have New Church

St. Matthew Lutheran Congregation to Build Edifice at Southwest Corner Aberdeen and 80th Sts.

The St. Matthew Lutheran congregation, organized but a few years ago, and holding services in a bungalow adjoining the site of the proposed church, have outgrown its present quarters and find it necessary to erect a church building on the southwest corner of 80th and Aberdeen Sts.

The congregation has organized 20 teams of five campaigners each to make a so-called "drive" during the month of June, to raise funds to at least finish a part of the proposed church. The goal to be attained is $20,000 and as the members of the congregation subscribed a sum in excess of $10,000 on the evening of the "drive," the workers are confident that the remainder will be subscribed by the congregation's friends in the community. Already many merchants have given financial assistance to help the good cause along.

Chiropractors Do Not Cure or Heal

The Chiropractor does not cure or heal. He could not if he wanted to, for he has no such power, and no one realizes this more than the Chiropractor himself.

The reason we have dis-ease instead of ease in the body is because somewhere in the spinal column there is a vertebra or vertebrae, on or more segments of the spinal column, that have become subluxated, and the opening, or foramen, which allows for the passage of the spinal nerve emitting from the spinal cord, has been made smaller, and pressure is produced on the nerve and its carrying capacity interfered with.

It is a recognized fact that in order to have health, the body must have pure food and fresh air, but this is not all that is necessary; there must be "life"—Chiropractically termed Innate Intelligence. This intelligence resides in the brain, so in order to have the expression of this "life" in the tissues there must be maintained at all times a communication between brain and tissue, which is accomplished by the nerves. Efferent nerves carrying the life force (Mental Impulses) from the brain to the tissue and the afferent nerves carrying the vibration from the tissue to the brain. This communication between brain cell and tissue cell allows the intelligence to express itself through the physical, and this gives us a condition of health, or ense, as a result of the proper combination of the food elements, the oxygen and the Mental Impulses.

Now with a subluxated vertebrate causing pressure on an efferent nerve and interfering with the transmission of Mental Impulses, we will have inco-ordination, or disease, in the tissue. The physician or Chiropractor has no power to cure or heal that condition. All the Chiropractor can do, and all he needs to do, and all he endeavors to do, is to adjust the subluxated vertebra that the pressure may be removed so that the transmission of Mental Impulses may become normal and Nature, or "Innate Intelligence" does the curing and healing.

Auburn Park Federated Church

Last Sunday, in connection with the celebration of the Lord's Supper, nine new members were given the right hand of fellowship by the Auburn Park Federated Church. Since the arrival of the pastor on the field on the first of May this church has taken on new life. Many new families have been interested in the church. The receiving of these nine new members is an illustration of the growing popularity of the church. Several others are expected to unite with this church in the near future. The Sunday school has also had a large increase.

The church in its endeavor to touch all phases of life in the community is planning a daily vacation Bible school for the month of July.

At the Sunday morning service, June 20, the pastor, A. Royall Gay, will preach on "Faith—An Asset in Every Man's Life." A sociological rather than theological viewpoint will be taken. Sunday school, 12:00 noon. Young people's meeting, 6:30 p. m. Evening worship, 7:45. Midweek prayer service, Wednesday, 8 p. m.

A card and bunco party will be given by Royal Neighbors of America, South Englewood Camp No. 3236, Friday evening, June 18th, at Cosmopolitan Lodge Hall. You are cordially invited.

Pianos tuned, $1.75; repairing. Kiesling, 7330 Lowe Ave., Stewart 4425.

All through her life the bride treasures those gifts which came to her on that day of her wedding. They are a living part of her household. And every present retains the found memory of the giver. The logical place to go for wedding presents is this store, filled as it is with essentially refined gifts that custom has associated with weddings—rare cut glass, silverware of great variety, ornaments, clocks—but you must come and see. Remember always that purchases made here are in a sense priceless. The wedding gift is the gift of greatest love. But such gifts must be purchased where dependability is the keynote.

All this month this store will be virtually a "Bride Shop."

FRIENDS OF IRISH FREEDOM

One of the largest demonstrations we ever witnessed in Chicago was given under the auspices of the local council, Friends of Irish Freedom, Wednesday evening, June 9th, to act as an escort to Eamon De Valera, the illustrious president of the Irish Republic, to the Auditorium where a monster demonstration was held for the purpose of asking the Republican convention to recognize the Irish Republic. The procession started at 8 p. m. sharp from Chicago Ave. and Lake Shore Drive. Seventy-five branches participated and there were at least 50,000 people on parade headed by the mounted police in command of Capt. Dennis Malloy of East Chicago Ave. station, escorted by five hundred horsemen and their splendid mounts under command of Capt. George Kelly and his aides, Col. George B. Van Norman, Col. John Lawler, Capt. J. E. Cherrill of Cherrill & Lett, J. R. Corcoran, Bert Brodie, Joe Cavanaugh, Tom Gavin and Mike McAuliff. They made a splendid military appearance under their gallant leaders and were cheered along the whole line of parade. They were there at the invitation of the Robert Emmet branch who mustered one thousand members and their friends together with fifty autos decorated with the American and Irish colors. This branch was in charge of John O'Grady, Tom Prendergast, Miss McCarthy and Mrs. Rose McGinnis, and by common consent Tom Prendergast was elected grand marshal.

About the Carat.

The "carat," the unit of weight peculiar to jewelry, was introduced from India. Man sought to record the weight of small objects by using tiny seeds. The barley grain was used in Europe. In the East the seeds of a vetch were in use, and it is from the Greek word for vetch (keration) that the now familiar term "carat" is derived.

Natural Cloth.

In tropical South America the inner bark of a species of tree yields an excellent cloth, the fibers of which are interwoven much as if the fabric came from a loom. All that is necessary is to wash and beat out the cellular stuff from the interstices and, when dried, it is light, flexible and altogether suitable for making up into garments.

A TIROMETER adds one-third to the life of a tire, as it always shows the pressure. Kicking a tire won't tell the pressure within 20 pounds. Taking pressure with an ordinary tire gauge is a long, dirty, tiresome job. Have them put on your tires today. Easily installed.
